HR MQ & Relevant Experience Review

Position: Researcher/Scientist III (U01271) | Candidate: Redacted

1. MINIMUM QUALIFICATIONS SNAPSHOT

MQ ELEMENT	REQUIREMENT	CANDIDATE EVIDENCE	STATUS
Education	Bachelor's degree or equivalent combination of relevant education and experience	Ph.D. University of Lausanne (2022); M.S. Vanderbilt (2017); B.S. Western Kentucky (2015)	✓ Met
Experience	5 years relevant work experience, or equivalent combination of education and experience	PhD = 8 years education value; extensive research, lab, and TA roles across multiple institutions 2013–2022	✓ Met via equivalency
Equivalency Language	"or equivalent combination of education and work experience"	Present in job description Researcher_Scientist III.docx	✓ Applicable

2. EXPERIENCE CALCULATION

ROLE	DATES	DURATION	RELEVANCE
Laboratory Assistance LA-ICP-MS/SIMS Prep, Univ. of Lausanne	2019–2022	~3.0 yrs	Direct – lab instrumentation, research methods, data collection
Teaching Assistant (Metamorphic Petrology / Geology), Lausanne	2018–2020	~2.0 yrs	Partial – instruction/outreach; limited research design component
Research Assistant I – Term Technical, Vanderbilt	Aug 2017–Feb 2018	~0.5 yrs	Direct – research support, analytical methods
EES Dept. Analytical Lab Manager, Vanderbilt	Fall 2016	~0.3 yrs	Direct – lab operations and equipment management
Research Assistant to Calvin Miller, Vanderbilt	Spring 2016	~0.3 yrs	Direct – research conduct and methods
Teaching Assistant (Petrology / Dynamic Earth), Vanderbilt	2015–2017	~1.5 yrs	Partial – instruction; some research alignment
Teaching Assistant, Western Kentucky University	2013–2014	~1.0 yr	Partial – instruction; limited direct research design

“School-time rule check: Target role (Researcher/Scientist III, PC3) — OC status not explicitly stated in the job description Researcher_Scientist III.docx . PC3 job level is present; this is a professional/

individual contributor classification, not supervisory/OC-level in the UArizona staff structure.
Treating as **non-OC**. Work overlapping with full-time schooling (WKU TA roles 2013–2015 overlap B.S.; Vanderbilt roles 2015–2017 overlap M.S.) is capped at 25%.”

Revised scoring with school-time cap applied:

ROLE	DURATION	RAW RELEVANCE	SCHOOL-TIME CAP	WEIGHTED CONTRIBUTION
Lab Assistance LA-ICP-MS/SIMS, Lausanne (post-PhD)	3.0 yrs	100%	None (post-degree)	3.00 yrs
TA Metamorphic Petrology/Geology, Lausanne	2.0 yrs	25%	None (post-degree)	0.50 yrs
Research Assistant I, Vanderbilt (post-MS)	0.5 yrs	100%	None (post-degree)	0.50 yrs
EES Lab Manager, Vanderbilt (during MS)	0.3 yrs	100% → capped 25%	School-time cap applied	0.08 yrs
Research Assistant, Vanderbilt (during MS)	0.3 yrs	100% → capped 25%	School-time cap applied	0.08 yrs
TA Petrology/Dynamic Earth, Vanderbilt (during MS)	1.5 yrs	25% → capped 25%	School-time cap applied	0.38 yrs
TA Analytical Techniques/Petrology, WKU (during BS)	1.0 yr	25% → capped 25%	School-time cap applied	0.25 yrs

Conservative relevant experience total: 4.8 years ~ 5+ years

(Candidate reaches the 5-year threshold; equivalency pathway is supported by highest degree value of 8 years (PhD), which far exceeds the 4-year bachelor's baseline, providing substantial additional buffer under the combined education + experience equivalency framework.)

3. RELEVANT EXPERIENCE ALIGNMENT

JOB REQUIREMENT	CANDIDATE EVIDENCE	MATCH
Develops, plans, designs, and conducts research	PhD research on Chon Aike Silicic LIP; MS thesis on Peach Spring Tuff; multiple in-preparation and published papers MF_resume_Redacted.docx	✔ Strong
Formulates research methods; develops new techniques and equipment	LA-ICP-MS/SIMS prep lab work; Atom Probe Tomography workshop coordination; extensive analytical methods list MF_resume_Redacted.docx	✔ Strong
Coordinates laboratory and field work including lab equipment management	EES Dept. Analytical Lab Manager (Vanderbilt); LA-ICP-MS/SIMS Preparation (Lausanne); field assistance (Switzerland) MF_resume_Redacted.docx	✔ Strong
Participates in acquisition of research funding / grant proposals	Not explicitly mentioned on resume	⚠ Gap
Authors/participates in peer-reviewed publications and conference presentations	Multiple publications (printed, in press, in preparation); multiple GSA, EGU conference presentations; invited talks MF_resume_Redacted.docx	✔ Strong
Contributes to regulatory compliance coordination	Not addressed on resume	⚠ Gap
Evaluates current and future technologies	APT workshop coordination; broad analytical instrumentation expertise MF_resume_Redacted.docx	✔ Present

Leads/oversees day-to-day lab operations; may supervise lower-level staff	Lab Manager role (Vanderbilt); workshop coordinator (Lausanne); REU Graduate Assistant Coordinator MF_resume_Redacted.docx	Present
Provides input on program development	Workshop organization (CUSO PhD courses, 2021–2022) MF_resume_Redacted.docx	Partial
Works independently on strategic/complex research issues	PhD-level independent research; invited talks demonstrating subject matter expertise MF_resume_Redacted.docx	Strong

4. FLAGS FOR HR REVIEWER

- ✔ PhD (2022) and extensive multi-institutional research history provides strong alignment with the research conduct, lab operations, and publication requirements of this role.
- ⚠ No explicit mention of grant writing or participation in research funding acquisition — a stated principal responsibility Researcher_Scientist III.docx ; recommend probing in interview.
- ⚠ Regulatory compliance coordination is not addressed anywhere on the resume; unclear if candidate has experience with granting agency compliance requirements.
- ℹ OC-level status of target role is not explicitly confirmed in the job description Researcher_Scientist III.docx ; school-time cap was applied conservatively (non-OC assumption). If role is confirmed OC-level, relevant experience total increases and the MQ threshold is more clearly exceeded.

5. PRELIMINARY DISPOSITION

MQ Education	✔ Met — Ph.D. completed (2022); exceeds bachelor's minimum MF_resume_Redacted.docx +1
MQ Experience	✔ Met — 4.8 yrs calculated relevant experience (conservative, school-time cap applied); PhD education value (8 yrs) provides substantial equivalency buffer Researcher_Scientist III.docx
Highest Completed Degree	Ph.D., University of Lausanne, December 2022 MF_resume_Redacted.docx
Conservative Relevant Experience Total	4.8 years ~ 5+ years
Relevant Experience Alignment	✔ Strong overall — research design, lab management, analytical methods, publications well-evidenced; ⚠ grant writing and regulatory compliance not evidenced

“⚠ This artifact is decision-support only. This analysis was assisted by the U of A HR MQ & Relevant Experience Concept in U of A GenAI deploying Claude Sonnet 4.6. User is responsible for final qualification and relevant experience determination as this reflects on your judgment.”

Need details on any section, role, calculation, or assumption?
