HR MQ, Relevant Experience & Preliminary Salary Range Review

Job Code: U01271 | Job Description Title: Researcher/Scientist III | Job Level: PC3

1. MINIMUM QUALIFICATIONS SNAPSHOT

MQ Element	Requirement	Candidate Evidence	Status
Education	Bachelor's degree	Ph.D. – Earth Sciences (Institute of Earth Sciences)	✔ Exceeds
Relevant Experience	5 years (or equiv. combo)	See Section 2 (0.2 years ~ 1+ years allowed)	⚠ Does not clearly meet
Combined Education + Relevant Experience	9 total years	9 total years (8 education + 1 relevant experience)	✔ Met
Equivalency Needed	Yes	Equivalency allowed per JD: Yes	i N/A

- Equivalency allowed per JD: Yes (equivalent combination of education and work experience)
- OC-level role: No → overlapping full-time school work counts at 0%

2. EXPERIENCE CALCULATION

Role	Dates	Duration	Relevance	School Overlap	Allowed Relevance
Research Assistant to Calvin Miller	Spring 2016 (~Jan–May 2016)	~0.4 yrs	100%	Yes	100% → 0.0 yrs
EES Department Analytical Lab Manager	Fall 2016 (~Aug–Dec 2016)	~0.4 yrs	100%	Yes	100% → 0.0 yrs
Teaching Assistant for Petrology	Spring 2017 (~Jan–May 2017)	~0.4 yrs	25%	Yes	25% → 0.0 yrs
Research Assistant I-Term Technical	August 2017–February 2018	~0.5 yrs	100%	Partial	50% → 0.2 yrs
Teaching Assistant for Metamorphic Petrology	Fall 2018, 2019, 2020 (~3 semesters)	~0.9 yrs	25%	Yes	25% → 0.0 yrs
Teaching Assistant for Geology for EPFL	Fall 2019, 2020 (~2 semesters)	~0.6 yrs	25%	Yes	25% → 0.0 yrs
Laboratory Assistance for LA-ICP-MS/SIMS Preparation	2019–2022	~3.0 yrs	100%	Yes	100% → 0.0 yrs
Field Assistance BSc Switzerland	June 2018, 2021	~0.2 yrs	50%	Yes	50% → 0.0 yrs
Teaching Assistant for Analytical Techniques	Fall 2013	~0.3 yrs	25%	Yes	25% → 0.0 yrs
Teaching Assistant for Petrology	Spring 2014	~0.3 yrs	25%	Yes	25% → 0.0 yrs

Relevant experience total: 0.2 years ~ 1+ years

3. RELEVANT EXPERIENCE ALIGNMENT

Job Requirement	Candidate Evidence	Match
Develops, designs, and conducts one or more small or moderately complex research projects in line with plan.	Ph.D. thesis on Chon Aike Silicic LIP; M.S. thesis on Peach Spring Tuff; multiple in-preparation and published manuscripts documenting independent research design and execution.	Strong
Responsible for operation of a specialized research area or lab.	EES Dept. Analytical Lab Manager, Vanderbilt (Fall 2016); LA-ICP-MS/SIMS preparation lab assistance, University of Lausanne (2019–2022).	Strong
Formulates research methods and develops research criteria.	Extensive analytical methods section covering SEM, EMPA, LA-ICP-MS, SIMS, APT, XCT, and others; methodology described in thesis and publications.	Strong
Participates in acquiring research funding including writing grant proposals. May co-author and may co-present results with principal investigators at meetings or conferences.	Co-author on publications in Journal of Petrology, Geosphere, JASES; oral and poster presentations at GSA Annual, EGU; invited talks at University of Geneva and USC. Grant writing not explicitly documented.	Moderate-Strong
Utilizes specialized in-depth expertise to coordinate and administer specific	Coordinator/organizer for two CUSO Doctoral Program workshops (Spring 2022, Fall 2021); REU	Strong

Job Requirement	Candidate Evidence	Match
programs. Knowledge and experience required to deal with strategic issues	Graduate Assistant Coordinator, Vanderbilt (2016).	
Performs work with extensive knowledge and utilizes University systems department tools with proficiency	Proficiency in ArcGIS, QGIS, Python, IDL, LaTeX, data reduction programs (Glitter, lolite, Lamtrace), MELTS modeling, Microsoft Office, Adobe Suite.	Strong
Provides input on program development and processes	Workshop coordination and curriculum development for doctoral programs; REU coordination and instruction.	Moderate
Knowledge of and experience with other colleges and the University as a whole	Experience across WKU, Vanderbilt, and University of Lausanne; collaboration with multiple institutions and international research groups.	Moderate
Routinely provides input regarding department programs. Subject matter expert in specific career industry	Invited talks at peer institutions; recognized subject matter expertise in igneous petrology, geochronology, and isotope geochemistry.	Strong
Plans and leads work of multiple staff performing varying responsibilities. Leads lower-level staff and may supervise. Oversees day-to-day operation of project	REU Graduate Assistant Coordinator and instructor; workshop organizer with invited international speakers; lab management role at Vanderbilt.	Moderate
May make recommendations for improvement to management	Implied through lab management and workshop coordination roles; not explicitly stated on resume.	Weak/Implied
May build and deliver training	Teaching assistant roles at WKU, Vanderbilt, and University of Lausanne; REU instructor; workshop organizer and coordinator.	Strong
Performs some or all of the duties of Research Professional I-II	Cumulative research assistant and lab roles across three institutions spanning undergraduate through doctoral levels.	Strong

4. FLAGS FOR HR REVIEWER

#	Flag	Detail
1	School Overlap – Most Experience During Degree Programs	Nearly all listed roles overlap with full-time enrollment at WKU (B.S.), Vanderbilt (M.S.), or University of Lausanne (Ph.D.). Under non-OC rules, overlapping school work counts at 0%, leaving ~0.25 years direct post-degree experience. HR must confirm whether Ph.D. equivalency (4 years) is applied to reach the 5-year threshold.
2	Grant Writing Not Explicitly Documented	JD requires participation in acquiring research funding and writing grant proposals. Resume does not explicitly list grant proposals authored or co-authored. HR should probe at interview.
3	Post-Ph.D. Employment Gap	Ph.D. completed December 2022. No post-doctoral or professional employment listed after that date. HR should clarify current employment status and any gap period.

#	Flag	Detail
4	International Credentials	Ph.D. completed at University of Lausanne (Switzerland). HR may wish to confirm credential equivalency per UA policy if not already on file.
5	Research Assistant I-Term Technical Classification	The Vanderbilt role (Aug 2017–Feb 2018) is labeled 'I-Term Technical,' which may indicate a fixed-term or temporary appointment. HR should confirm FTE and whether it qualifies as professional experience.
6	Candidate Name Redacted in Publications	Several publication entries appear to have the candidate's name redacted or removed from the resume text. HR should request full unredacted publication list to verify authorship and contribution level.

5. PRELIMINARY SALARY RANGE

Education & Experience Above (Below) Requirement	Meets requirement at threshold via equivalency (Ph.D. – Earth Sciences (Institute of Earth Sciences) = 8 yrs + 1 yr relevant exp = 9 yrs; requirement = 9 yrs).
Pay Grade	Grade 8
Midpoint	\$74,254
Quartile	1st Quartile (at or near minimum) — meets MQ at threshold; limited verified post-degree experience above requirement
Quartile Characteristics	Meets minimum qualification of the job. However, may be fairly new to the job or field. Building both skills and knowledge as well as the ability to handle the full breadth of job duties and responsibilities. Employee is working towards proficiency in the job.
Preliminary Salary Range	59,405 – 63,754 (Min to ~1st Quartile)

 This is a preliminary salary range and is intended only as a guide when considering internal equity and departmental budget constraints.

6. PRELIMINARY DISPOSITION

MQ Education	Bachelor's degree
MQ Experience	5 years (or equiv. combo)
Highest Completed Degree	Ph.D. – Earth Sciences (Institute of Earth Sciences)
Relevant Experience Total	0.2 years ~ 1+ years
Combined Education + Relevant Experience	9 total years (8 education + 1 relevant experience); requirement: 9 total years
Relevant Experience Alignment	See Section 3
Preliminary Salary Range	59,405 – 63,754

 This artifact is decision-support only. Final qualification determination rests with the HR reviewer.

This analysis was assisted by the U of A HR MQ, Relevant Experience & Preliminary Salary Range Helper in AI VERDI. The HR reviewer must review and confirm all job architecture, equivalency, relevance, and preliminary salary
