UArizona HR MQ & Relevant Experience Helper — Full Analysis

Section 1: STANDARD RESUME EXTRACTION

Highest Completed Degree Earned: Ph.D., Earth Sciences (Institute of Earth Sciences), University of Lausanne, December 2022 MF_resume_Redacted.docx

Education Assumption Applied? No

Education Assumption Note: N/A — Degree is clearly stated on the resume.

Clean Chronology:

PERIOD	INSTITUTION / ROLE
Fall 2013	Western Kentucky University — Teaching Assistant, Analytical Techniques
Spring 2014	Western Kentucky University — Teaching Assistant, Petrology
May 2015	B.S. Geology, Western Kentucky University — Conferred
May–June 2014	Vanderbilt REU — Undergraduate Participant
January 2015	Vanderbilt REU — Returning Participant / Instructor
Fall 2015	Vanderbilt University — Teaching Assistant, Dynamic Earth
Spring 2016	Vanderbilt University — Research Assistant to Calvin Miller
Fall 2016	Vanderbilt University — EES Department Analytical Lab Manager
May–June 2016	Vanderbilt REU — Graduate Assistant Coordinator and Instructor
January 2016	Centre College Study Abroad (New Zealand) — Graduate Teaching Assistant
February–March 2017	Secondary Ion Mass Spectroscopy Workshop, UCLA
Spring 2017	Vanderbilt University — Teaching Assistant, Petrology
August 2017	M.S. Earth and Environmental Science, Vanderbilt University — Conferred
August 2017–February 2018	Vanderbilt University — Research Assistant I, Term Technical
2018–2022	University of Lausanne — Laboratory Assistance (LA-ICP-MS/SIMS Preparation)
Fall 2018, 2019, 2020	University of Lausanne — Teaching Assistant, Metamorphic Petrology

Fall 2018, 2019, 2020	University of Lausanne — Teaching Assistant, Metamorphic Petrology
Fall 2019, 2020	University of Lausanne — Teaching Assistant, Geology for EPFL
June 2018, 2021	University of Lausanne — Field Assistance BSc Switzerland
December 2022	Ph.D., University of Lausanne — Conferred

Resume Duty Summary by Role: MF_resume_Redacted.docx

- **WKU Teaching Assistant (Analytical Techniques & Petrology, 2013–2014):** Assisted instruction in analytical methods and petrology courses. Duties inferred to include student support and lab-adjacent instructional work.
- **Vanderbilt REU (2014–2016):** Undergraduate participant (2014), returning instructor/role model (2015), Graduate Assistant Coordinator and Instructor (2016). Led and coordinated research experiences for undergraduate students.
- **Vanderbilt Teaching Assistant – Dynamic Earth (Fall 2015):** Supported instruction for an undergraduate Earth science course.
- **Vanderbilt Research Assistant to Calvin Miller (Spring 2016):** Assisted faculty research; specific duties not described beyond the title.
- **Vanderbilt EES Dept. Analytical Lab Manager (Fall 2016):** Managed the department analytical laboratory; implied oversight of equipment and lab operations.
- **Centre College Study Abroad – Graduate Teaching Assistant (January 2016):** Graduate-level teaching support for a physical volcanology study abroad course in New Zealand.
- **Vanderbilt Teaching Assistant – Petrology (Spring 2017):** Assisted instruction in petrology course.
- **Vanderbilt Research Assistant I, Term Technical (August 2017–February 2018):** Research support role; specific duties not described beyond title.
- **University of Lausanne – Laboratory Assistance, LA-ICP-MS/SIMS Preparation (2018–2022):** Prepared samples and supported operation of specialized analytical instruments (LA-ICP-MS, SIMS); overlapped with doctoral study.
- **University of Lausanne – Teaching Assistant, Metamorphic Petrology (Fall 2018, 2019, 2020):** Assisted instruction in metamorphic petrology; overlapped with doctoral study.
- **University of Lausanne – Teaching Assistant, Geology for EPFL (Fall 2019, 2020):** Assisted instruction; overlapped with doctoral study.
- **University of Lausanne – Field Assistance BSc Switzerland (June 2018, 2021):** Field support for undergraduate BSc programs; overlapped with doctoral study.
- **Workshop Coordinator/Organizer (Spring 2022, Fall 2021):** Organized PhD-level workshops on Atom Probe Tomography and Magma Chamber Simulator; coordinated invited speakers and logistics.
- **Conference Presentations:** Multiple oral and poster presentations at GSA, EGU, and invited seminars (2014–2022).
- **Publications:** Multiple peer-reviewed publications (printed/in press) and manuscripts in preparation.

Section 2: RELEVANT EXPERIENCE MATRIX

“Note on School-Time Overlap: The candidate's B.S. was conferred May 2015; M.S. was conferred August 2017; Ph.D. was conferred December 2022. All roles prior to May 2015 overlap with full-time B.S. enrollment. All roles from Fall 2015 through August 2017 overlap with M.S. enrollment. All Lausanne roles (2018–2022) overlap with Ph.D. enrollment. Per guidance, work performed during full-time schooling does not count toward MQ or equivalency unless it is an OC-level role. Teaching assistant and research assistant roles at universities during degree programs are typically student-employment classifications; they will be evaluated under the 25% school-time / paid student employment cap where they clearly overlap with full-time enrollment. The Analytical Lab Manager role at Vanderbilt (Fall 2016) may be a more substantive independent role; however, it also overlaps with M.S. enrollment and will be assessed accordingly. The post-Ph.D. Research Assistant I Term Technical role (August 2017–February 2018) begins at degree conferral (August 2017) and runs ~6 months post-degree — this portion is assessed at full weight for the post-degree period. Clarity on exact FTE status is not available from the resume; analysis applies best available interpretation and flags uncertainty.”

RESUME ROLE	DATES / DURATION	ALIGNMENT TO PRINCIPAL RESPONSIBILITIES	RELEVANCE % (0/25/50/75/100)	WEIGHTED RELEVANT EXPERIENCE CONTRIBUTION	WORK LEVEL FIT (BELOW / AT / ABOVE / UNCLEAR)	SCHOOL-TIME RULE APPLIED?	H A N
WKU TA – Analytical Techniques & Petrology	Fall 2013–Spring 2014 (~1 semester each, ~0.5 yr total)	Minimal direct alignment to research design, lab management, or grant writing; instructional support only	25%	~0.13 yr	Below	Yes – overlaps with B.S. enrollment; paid student employment cap applied	T n a p r o c s p v
Vanderbilt REU – Undergraduate Participant	May–June 2014 (~0.17 yr)	No clear alignment to RS III responsibilities	0%	0.00 yr	Below	Yes – overlaps with B.S. enrollment	L r p r p l e e
Vanderbilt TA – Dynamic Earth	Fall 2015 (~0.33 yr)	Minimal direct alignment; instructional support	25%	~0.08 yr	Below	Yes – overlaps with M.S. enrollment; paid student employment cap applied	T g s a R r
Vanderbilt Research Assistant to Calvin Miller	Spring 2016 (~0.33 yr)	Some alignment: supports research activities and data collection	25%	~0.08 yr	Below	Yes – overlaps with M.S. enrollment; paid student employment	R g d d a c

						employment cap applied	status
Vanderbilt EES Dept. Analytical Lab Manager	Fall 2016 (~0.33 yr)	Good alignment: lab equipment management, oversight of lab operations, likely coordination with researchers	25%	~0.08 yr	At	Yes – overlaps with M.S. enrollment; paid student employment cap applied	Successful
Vanderbilt REU – Graduate Asst. Coordinator & Instructor	May–June 2016 (~0.17 yr)	Some alignment to training/ instruction; limited alignment to research design and lab management	25%	~0.04 yr	Below	Yes – overlaps with M.S. enrollment; paid student employment cap applied	Completed
Centre College Study Abroad – Grad TA	January 2016 (~0.08 yr)	Minimal direct alignment	25%	~0.02 yr	Below	Yes – overlaps with M.S. enrollment; paid student employment cap applied	Enrolled
Vanderbilt TA – Petrology	Spring 2017 (~0.33 yr)	Minimal direct alignment	25%	~0.08 yr	Below	Yes – overlaps with M.S. enrollment; paid student employment cap applied	Successful
Vanderbilt Research Assistant I – Term Technical	August 2017– February 2018 (~0.5 yr)	Moderate alignment: research support, technical work; M.S. conferred August 2017 so post-degree for entire duration	75%	~0.38 yr	At/Below	No – post-M.S. conferral; school-time rule does not apply	Postgraduate
U of Lausanne – Lab Assistance, LA-ICP-MS/ SIMS Prep	2018–2022 (~4 yrs, overlapping with Ph.D.)	Strong alignment: specialized instrumentation operation, sample preparation, lab equipment management, data generation	25%	~1.00 yr	At	Yes – overlaps with Ph.D. enrollment; paid student employment cap applied	Completed
U of Lausanne – TA Metamorphic	Fall 2018, 2019, 2020 (~3 yrs)	Minimal direct alignment to RS III responsibilities	25%	~0.19 yr	Below	Yes – overlaps with Ph.D.	Successful

Petrology	(~2 semesters, ~0.75 yr total)					enrollment; paid student employment cap applied	c
U of Lausanne – TA Geology for EPFL	Fall 2019, 2020 (~2 semesters, ~0.5 yr total)	Minimal direct alignment	25%	~0.13 yr	Below	Yes – overlaps with Ph.D. enrollment; paid student employment cap applied	Ir s s c
U of Lausanne – Field Assistance BSc	June 2018, 2021 (~2 months total, ~0.17 yr)	Some alignment to field/lab coordination	25%	~0.04 yr	Below	Yes – overlaps with Ph.D. enrollment; paid student employment cap applied	B s s c
Workshop Coordinator/ Organizer (CUSO PhD courses)	Spring 2022, Fall 2021 (~0.25 yr estimated)	Moderate alignment: training delivery, coordination, some programmatic leadership	25%	~0.06 yr	At/Below	Yes – overlaps with Ph.D. enrollment; paid student employment cap applied	C a s c o d p u p ti c

Section 3: EQUIVALENCY ANALYSIS

Equivalency Applicable? Yes — The job description states "Minimum of 5 years of relevant work experience, or equivalent combination of education and work experience." [Researcher_Scientist III.docx](#)

Highest Completed Education Used in Analysis: Ph.D., University of Lausanne, December 2022
[MF_resume_Redacted.docx](#)

Education Value for Equivalency Purposes: 8 years (Doctoral degree) [University_Staf...-05-26.pdf](#)

Total Verified Relevant Experience (precise): ~2.31 years

Total Verified Relevant Experience (rounded): 3 years (rounded up from 2.31 per rounding rule; non-zero fractional total rounded up to next whole year)

Student Employment / Internship Adjustments Applied: Yes — All roles overlapping with full-time B.S., M.S., or Ph.D. enrollment were capped at 25% per school-time and paid student employment guidance. [University_Staf...-05-26.pdf](#)

Volunteer / Unpaid Internship Exclusions Applied: The undergraduate REU participant role (May–June 2014) was excluded as it appears to be a non-professional, participant-level experience. No other roles were identified as clearly volunteer or unpaid; however, pay status for some roles (e.g., field assistance, workshop coordination) is not confirmed on the resume. Where uncertainty exists, the school-time cap was applied conservatively.

Equivalency Assessment Summary:

- The candidate holds a completed Ph.D., which carries an education equivalency value of 8 years under University Staff equivalency guidance [University_Staf...-05-26.pdf](#) . The job requires a minimum of 5 years of relevant work experience or equivalent combination of education and experience [Researcher_Scientist III.docx](#) .
- Under the equivalency framework, the total qualification threshold is 5 years. The candidate's Ph.D. alone (8 years education equivalent) exceeds that threshold without any work experience contribution required [University_Staf...-05-26.pdf](#) .
- Verified relevant work experience beyond the doctoral credential totals approximately 2.31 years (precise) / 3 years (rounded), after applying school-time caps to all roles that overlapped with degree enrollment.
- Even using only the education equivalency (8 years > 5 years required), the candidate meets and exceeds the minimum qualification threshold through education alone.
- The combination of Ph.D. (8 years equivalent) and 3 years verified relevant experience (rounded) yields a total of 11 years equivalent against the 5-year threshold, placing the candidate well above the minimum.

Section 4: DRAFT RATIONALE FOR HR REVIEW

Minimum Qualifications Status: EXCEEDS

Education Match: The candidate holds a completed Ph.D. in Earth Sciences (December 2022). The job requires a Bachelor's degree or equivalent advanced learning [Researcher_Scientist III.docx](#) . The Ph.D. substantially exceeds the minimum education requirement and carries an 8-year equivalency value under University Staff guidelines [University_Staf...-05-26.pdf](#) .

Minimum Years Experience Threshold: 5 years of relevant work experience, or equivalent combination of education and experience [Researcher_Scientist III.docx](#) .

Total Verified Relevant Experience: ~2.31 years (precise); 3 years (rounded up per rounding rule).

Summary Rationale:

The candidate presents a completed Ph.D. in Earth Sciences, which alone carries an 8-year education equivalency value under University Staff guidelines — exceeding the position's 5-year total threshold without any work experience required [University_Staf...-05-26.pdf +1](#) . The majority of the candidate's professional roles occurred concurrently with full-time degree enrollment (B.S., M.S., and Ph.D.), and therefore the school-time cap of 25% was applied to those roles, significantly reducing counted experience. Despite this, the candidate demonstrates strong substantive alignment to the Researcher/Scientist III principal responsibilities through doctoral-level independent research, specialized analytical instrumentation operation (LA-ICP-MS, SIMS, SEM, EMPA, APT), peer-reviewed publications, conference presentations, and workshop coordination and training [MF_resume_Redacted.docx +1](#) . The post-degree Research Assistant I Term Technical role at Vanderbilt (August 2017–February 2018) and the Laboratory Assistance role at the University of

Vanderbilt (August 2017–February 2018) and the Laboratory Assistance role at the University of Lausanne both align well to RS III duties relating to lab equipment management, data generation, and specialized research support MF_resume_Redacted.docx +1 . The combination of doctoral-level education equivalency and verified relevant experience yields a total well above the 5-year minimum, supporting a final status of EXCEEDS.

Missing or Unclear Information:

- Pay/compensation status for several roles (e.g., field assistance, workshop coordination at Lausanne) is not stated; conservative 25% cap applied due to school-time overlap.
- Specific duties for "Research Assistant I – Term Technical" (Vanderbilt, 2017–2018) are not described beyond the title.
- FTE status for most roles is not specified; full-time equivalency cannot be confirmed; analysis assumes standard FTE where not stated.
- It is unclear whether the WKU and Vanderbilt TA roles were classified as paid student employment or as independent positions; treated as paid student employment for conservatism.
- The resume does not specify whether the workshop coordination roles (2021–2022) were compensated independently of the doctoral stipend.

Caution Flags:

- Nearly all professional experience was accrued during degree programs; post-degree independent professional experience is limited (~6 months at Vanderbilt post-M.S., pre-Lausanne Ph.D.).
- The school-time cap substantially reduces counted experience; HR should be aware that the qualification pathway here is primarily through the doctoral education equivalency, not through independent post-degree work experience.
- The depth of independent research and publication record is strong, but most of it was conducted as part of the doctoral program rather than in a post-degree professional staff role.
- If a hiring unit has removed the equivalency option from the posting, the candidate's limited post-degree verified experience (~0.38 yr post-M.S., plus school-time-capped contributions during Ph.D.) would not meet 5 years without equivalency — HR should confirm whether equivalency language is present in the active posting.

Section 5: SUMMARY TABLE

CANDIDATE NAME	CURRENT U OF A EMPLOYEE?	POSSIBLE INCUMBENT?	HIGHEST COMPLETED DEGREE	EDUCATION VALUE USED	TOTAL VERIFIED RELEVANT EXPERIENCE	EQUIVALENCY APPLICABLE?	MQ STATUS	
MF (Redacted)	Unknown — not stated on resume	Unknown	Ph.D., Earth Sciences, University of Lausanne, December 2022	8 years (Doctoral)	~2.31 yrs (precise) / 3 yrs (rounded)	Yes	EXCEEDS	

Section 6: TRACKER ROW

CANDIDATE NAME	CURRENT U OF A EMPLOYEE?	POSSIBLE INCUMBENT?	HIGHEST COMPLETED DEGREE	TOTAL VERIFIED RELEVANT EXPERIENCE	MQ STATUS	TARGET JOB CODE	ANALYSIS DATE
MF (Redacted)	Unknown	Unknown	Ph.D. (Doctoral)	3 yrs (rounded) / ~2.31 yrs (precise)	EXCEEDS	U01271	2025-07-14

This analysis was assisted by the UArizona HR MQ & Relevant Experience Helper in U of A GenAI. I reviewed and confirmed all job architecture, equivalency, and relevance calculations, and the final MQ status reflects my HR judgment.
